

# The Spencer Lee Band, River Water

scraping change again  
seen so much my friend  
how my world can seem so wrong  
breathe my nicotine  
poison tastes so clean  
it takes the edge off it all

River Water  
wash me clean  
sand away my worries please  
River Water  
take me down  
show me the dreams that I never found  
River Water's  
where I wanna drown

tread them city lights  
starlight in the sky  
let me run that dusty road

that simply town  
sleeping here, no sound  
tell my mama  
I'm coming home

River Water  
wash me clean  
sand away my worries please  
River Water  
take me down  
show me the dreams that I never found  
River Water's  
where I wanna drown

you can spit on me  
but can't kick me down  
I was raised with the blood of a hellhound  
I keep it rolling and rolling  
and rolling and rolling

River River  
River River Water  
won't you wash me clean  
River Water  
take me down  
show me the dreams that I never found  
River Water's  
where I wanna drown
