

# The Spill Canvas, Staplegunned

It was in the lobby when I set my sights on you  
I should have kissed you in the elevator  
But I was too scared to  
It was in the morning when I made up my mind  
I want you staplegunned right to my side all of the time

Do I have to spell it out for you  
or scream it in your face  
Oh the chemistry between us could destroy this place  
Do I have to spell it out for you  
or whisper in your ear  
Oh just stop right there  
I think that weve got something here

We were all alone when I finally made a pass at you  
It didnt work, and no it never does  
but you know how I do  
We were on the phone when I made up my mind  
I want you staplegunned right to my side all of the time

Do I have to spell it out for you  
or scream it in your face  
Oh the chemistry between us could destroy this place  
Do I have to spell it out for you  
or whisper in your ear  
Oh just stop right there  
I think that weve got something here

Do I have to spell it out for you  
or scream it in your face  
Oh the chemistry between us could destroy this place  
Do I have to spell it out for you  
or whisper in your ear  
Oh just stop right there  
I think that weve got something here
