

The Spinto Band, Tractor

Now is the time to act, this is the one way back to our love,
You are the one I see, you are the one that comes in my dreams,
Travel into the stars this is our last chance to be immortal,
The grass it grows so green,
Lets burn machines and walk in shadows

Where is your dying heart,
Where is the love that you once showed me,
When we forgot to breathe, we were one there was no middle,
Now that your on your feet,
Can we retreat and find that green grass,
So thick it sucks you in
The clorophyll cushion will be our home now,

(Bridge)

Its my tractor yeah
Gonna ride, gonna ride, gonna ride it on
Gonna ride, gonna ride 'till the break of dawn
Cut the grass and mow the lawn

Now is the time to act, this is the one way back to our love,

Its my tractor yeah
Gonna ride, gonna ride, gonna ride it on,
Gonna ride, gonna ride till the break of dawn,
Cut the grass and mow the lawn,

Its my tractor, Yeah
