

# The Stanley Brothers, Could You Love Me One More Time

Could you love me one more time  
With a love that really is mine  
I've waited so long they say you've gone wrong  
Have I lost you forever this time

We'll go down by the river  
I'll ask you one last time  
As the night breezes blow I'll whisper so low  
Could you love me one more time

Do you think that I'd believe  
This talk that's going around  
I've heard lots of things that somehow seem strange  
But darling I wouldn't throw you down

I know that you're my weakness  
I know you'll be my downfall  
I'm not sorry we met and I'll never forget  
That I gave you my heart soul and all
