The Stanley Brothers, Let's Part The Best Of Frie

Each night I dream of you sweet heart I can't see why we had to part But there's no reason now to stay For I was only in your way

Oh how I long to see your face Tho' there's someone in my place Or just to hear your voice again Darling why not part the best of friends

I played the game of love and lost My broken heart has paid the cost And now that I am free to go Somehow sweet heart I miss you so

You say that you are happy now I'll try to forget the past some how But if your new love turns you down Remember me I'm still around
