

# The Stills, Lola Stars And Stripes

we all need to feel secure  
we're so middle class  
But i'm still waiting for next week's chemical blast

don't go feeling insecure, no feeling sad  
with an M-16 you'll feel the surge of your american past  
but are you afraid?  
you always said the world would never last  
and lola i'm not afraid  
if you star-wipe all your past away  
and the sun burns one more day

lola, lola, will the world end me and you  
lola, lola, no we're never gonna make it through

can you take me back to that place where stars glow  
comets swarm like fireflies outside your window

but are you afraid?  
you always said the world would never last  
and lola i'm not afraid  
if you star-wipe all your past away  
and the sun comes one more day

lola, lola, will the world end me and you  
lola, lola, no we're never never make it through  
lola lola lola lola oooooooooohhhh
