

The Stone Roses, This Is The One

A girl consumed by fire
We all know her desire
From the plans that she has made
I had her on a promise
Immerse me in your splendour
All the plans that I have made
This is the one
This is the one
This is the one
This is the one
This is the one
This is the one
She's waited for

This is the one
This is the one
This is the one
Oh this is the one
This is the one
She's waited for

I'd like to leave the country
For a month of Sundays
Burn the town where I was born
If only she'd believe me
Bellona belladonna
Burn me out or bring me home

And this is the one
This is the one
This is the one
This is the one
This is the one
This is the one
This is the one
She's waited for

This is the one
This is the one
This is the one
Oh this is the one
This is the one
I've waited for

Oh this is the one
Oh this is the one
This is the one
I've waited for

This is the one
Oh this is the one
Oh this is the one
This is the one
I've waited for

This is the one
This is the one
This is the one
Oh this is the one
This is the one
I've waited for

It may go right
It may go wrong
This is the one
This is the one

She's waited for

And this is the one

This is the one

This is the one

This is the one

She's waited for

And this is the one

Oh this is the one

Ah this is the one

This is the one

I've waited for
