

# The Stone Roses, Your Star Will Shine

Your star will shine again one day  
Through deep blue velvet skies  
Shine for all the world to see  
The universe in your eyes

When the storm outside is raging  
And the dogs, they howl your name  
Lay down, sleep, I'll kiss you  
Your star will shine again

Na na na na na na na na

Hush my darling, don't you cry  
I'll stay by your side until morning  
All through the night I'll watch the skies

And your distant sun  
Will shine like the gun  
That's trained right between your Daddy's eyes
