

# The Story So Far, High Regard

Barter and trade always passive aggressive  
In spite of who you say you are  
Smother my name under soil & dirt  
In the earth  
Widen the distance apart  
Fuck an apology, I'm not sorry for anything  
I've been holding back my apathy for far too long  
You don't deserve what you haven't earned  
And your place in my heart has just grown so small

I'd like to think that you're worth my time  
But you embody everything that I hate  
Take a good hard look at what you see  
I've lost all my hope and all my faith  
Cause when I barely fuck up you just recoil and weep  
What do you want from me? I'm just a kid who got in too deep  
My walls are built up high forever bound to be steep  
I've got a birds eye view of all the secrets you keep

Try to tell me that you knew from the start  
That I would come to know that most would never enter my heart  
Because I'm colder than the others  
It's what sets me apart  
You manipulate and try to shine a light on my dark  
But this is my life. You should bounce & never call again  
No more strife. Go find it in the souls of the other men  
You know you're not as smart as you look  
I'm gonna take back what you took

I'd like to think that you're worth my time  
But you embody everything that I hate  
Take a good hard look at what you see  
I've lost all my hope & all my faith  
Cause when I barely fuck up you just recoil & weep  
What do you want from me? I'm just a kid who got in too deep  
My walls are built up high forever bound to be steep  
I've got a birds eye view of all the secrets you keep

You know you're not as smart as you look  
I'm going to take back what you took  
And you didn't know shit from the start
