

The Struts, Strange Days (feat. Robbie Williams)

When you stumble and fall
Get yourself off the ground
Play your favourite song
Anf sin git out loud
Take a deep breath
And in time you'll beign to smile
Listen to the wind
It's the sweetest of sound
Smilin' at the stranger on the underground
Wevery little thing
That you goes a long, long way

But we don't talk about it
But isn't it good to be dwon here alove?
Something money could never buy
It's worth more than a milion roses

Oh these are strange days
In many strange ways
Science fiction, i believe
Has become reality
Oh, these re strange Times
Lost n our minds
We don't nknow
It's unclear
Where we'll be this time next year

Oh strange days
strange days

Girls and boys are rushing to be on show
What's the hurry children?
You're forgeting to grow
Make the best of where you being in this crazy world

Oh these are strange days
In many strange ways
Science fiction, i believe
Has become reality
Oh, these re strange Times
Lost n our minds
We don't nknow
It's unclear
Where we'll be this time next year

Oh strange days
strange days
