

# The Style Council, My Very Good Friend

Down and down I went - in a spiral wheel  
Til I couldn't touch and I couldn't feel  
Then you came along and pulled me up  
Showed me all the things that I'd forgot  
Don't let it go - don't let it stop  
Don't let it fool - don't let it drop  
I've not come this far not to let it go  
Now I have your love I won't let it go

Here is the part that I want it to be  
If you want to stay with me

Though your precious time is hard to share  
It's enough for me to know you care  
And when or if you decide to leave  
Oh believe me I won't think bad of you

You've made me feel - like I've always wanted to feel  
You've made me whole again - we're not gonna lose it until the end

And just before I reach the end  
Let me introduce my very good friend  
The one who said they'd believe in me  
When all else around has fallen in
