

The Style Council, Night After Night

Oh night after night - I still miss you baby
Night after night - I still want your love
Since you've been gone my whole life has changed
Without your love mine's just not the same
Day after day your on my mind
Thinking of you takes up all of my time

I still miss you baby
Night after night I still want your love

I toss and turn in my empty bed
Memories of you keep dancing in my head
Day after day I miss you more
What I ever did since you walked out the door
I still miss you baby

Night after night - I still want your love
Night after lonely night

Day after day I miss you more
What I ever did since you walked out the door
I still miss you baby
