

The Style Council, Walls Come Tumbling Down!

You don't have to take this crap
You don't have to sit back and relax
You can actually try changing it
I know we've always been taught to rely
Upon those in authority -
But you never know until you try
How things just might be -
If we came together so strongly

Are you gonna try to make this work
Or spend your days down in the dirt
You see things can change -
YES an' walls can come tumbling down!

Governments crack and systems fall
'cause Unity is powerful -
Lights go out - walls come tumbling down!

The competition is a colour TV
We're on still pause with the video machine
That keep you slave to the H.P.

Until the Unity is threatend by
Those who have and who have not -
Those who are with and those who are without
And dangle jobs like a donkey's carrot -
Until you don't know where you are

Are you gonna realize
The class war's real and not mythologized
And like Jericho - You see walls can come tumbling down!

Are you gonna be threatend by
The public enemies No. 10 -
Those who play the power game
They take the profits - you take the blame -
When they tell you there's no rise in pay

Are you gonna try an' make this work
Or spend your days down in the dirt -
You see things CAN change -
YES an' walls can come tumbling down!
