

The Subways, Man On The Moon

full moon in july - as I remember
it was an ordinary night
but feeling good

I saw you dancing - in the spotlight
I lost my self control
you stole my soul

Im back on the road again
back on the road again

like a man on the moon
Im watching you
baby blue
Im over you

I make my own rules
no chains on me
independence is my style

hanging on the wire
dancing with desire
you cmon like a demon storm

I m back on the road again
back on the road again

like a man on the moon
Im watching you
baby blue
Im over you
