

# The Sugarcubes, Motorcrash (Justin Robertson M

Bjrk

Riding on my bicycle

I saw a motorcrash

A proper motorcrash

Lots of spectators

I rushed to the center

Saw the injured parents

Cuts on the children

An awful motorcrash

So dangerous motorcrash

So terribly bloody

Motorcrash

Destructive motorcrash

I took the mother

Sneaked with her secretly

All the way to my home

And nursed her gently

I put on her bandages, gave her

Milk and biscuits

She sighed pleasantly after this

Awful motorcrash

So dangerous, dangerous

Motorcrash

Motocrash

Destructive motorcrash

Einar

That girl on that bicycle

Showed great interest

In all the motorcrashes in the neighbourhood

She look quite innocent

Bjrk

Then we disguised ourselves

Took a taxi to her home

When her husband answered the door

She introduced herself

He said "Where have you been all this time?"

Einar

Believe you-me

I know what innocent looks like

She showed great interest

After she got that bicycle
