

The Summer Obsession, Solid Ground

Open up the door
You left this world again
Lying on the floor
What a mess you are
Just like that
You fucked it up again
I know I shouldn't have let you know you've gone too far
I know you don't want to talk about it
I know you don't want to be alone
I know you think you can't live without it
This time you're too far gone
This is where we came from
Don't forget where we've been
Tell me you'll understand
I'll never let you down
Whenever you are lost
I'll be your solid ground
And you'll be there for me
Like I'll be there for you
Until my dying day
I'll never let you down
We were the bad guys singin' along
To every song
We had the best times of our lives
Drivin' I-95
Get defeated every night
It's a wonder we're alive
A slow goodbye to each other
We'll be tight 'til the end of time
Did you think I would leave you stranded
When your life's on the line
This is where we came from
Don't forget where we've been
Tell me you'll understand
I'll never let you down
Whenever you are lost
I'll be your solid ground
And you'll be there for me
Like I'll be there for you
Until my dying day
I'll never let you down
Don't forget where we came from!
Don't forget where we came from!
Don't forget where we've been
Where we've been (where we've been)
You know this
You know this
I know you don't want to talk about it
I know you think you can't live without it
Don't forget where we came from
Don't forget where we've been
Tell me you'll understand
I'll never let you down
Whenever you are lost
I'll be your solid ground
And you'll be there for me
Like I'll be there for you
Until my dying day
I'll never let you down
