

# The Supremes, Save Me A Star

(Gordy/Gordy/Bradford)

You're building a private heaven  
You're reaching out so far  
When you reach your goal  
With joys untold  
At least  
Save me star

When you finish  
Your private heaven  
Think of me  
Wherever you are  
Remember how true  
I was to you

And at least won't you  
Save me star

Though I'd hate to see you go  
A kiss for luck and fame  
But if you should stumble  
And your heaven tumble  
I'll welcome you home again

When you finish your private heaven  
Though it be near or far  
Once again I'll call to say  
At least won't you  
Save me a star  
Oh, save me a star
