

# The Sweet, California Nights

The New York girls, they've gone down to California  
Don't say I didn't warn ya  
'Bout spending time in Miami F.L.A.  
That ain't no place to be anyway  
Ooh, looking for someone in their life  
Waiting for love to shine it's light

Everybody's dancing, California nights  
Summer in the city, California nights  
Boogie through to morning, California nights  
California never go away, I'm here to stay

Those Vegas chicks have gone and thrown it all away  
They're gonna settle down in L.A.  
They've heard the stories of Hollywood and stars  
Sunset Boulevard and custom cars  
From Roulette to room let, changing signs  
Ceasers to Rainbow, life unwinds
