

# The Sweet, Give The Lady Some Respect

Just give the lady some respect boy  
She don't need your neglect boy  
Do you know that if she where mine  
I would give her some more time  
Yes it's you im talking to sir  
Listen or you gonna loose her  
Waking up to the truth there  
Just give the lady what you think she needs  
Just give the lady what you know she needs  
And if you let her get to know you better  
She'll never let you down  
Oh-Oh the lady needs to know you  
If anything you said should upset her  
Don't let it turn you round  
Oh-Oh the lady needs to know you  
The lady needs to know you  
The lady needs to know  
you feel you need some one to turn to  
But your affraid that love will burn you  
And your head is cryin' save me  
Talk it out with the lady  
Yes it's you im talking to sir  
Listen or you gonna loose her  
Oh-Oh just give the lady what you think she needs  
Just give the lady what you know she needs  
And if you let her get to know you better  
She'll never let you down  
Oh-Oh the lady needs to know you  
If anything you said should upset her  
Don't let it turn you round  
Oh-Oh the lady needs to know you  
The lady needs to  
Just give the lady some respect boy  
She don't need your neglect boy  
Do you know that if she where mine  
I would give her some more time  
Yes it's you im talking to sir  
Listen or you gonna loose her "You gonna loose her"  
So give the lady whats she really needs  
Just let her get to know you better  
She'll never let you down  
Oh-Oh the lady needs to know you  
If anything you say should upset her  
Don't let it turn you round  
Oh-Oh the lady needs to know you (Repeat till fade)
