

# The Sweet, Honeysuckle Love

Connolly/Priest/Scott/Tucker

She loved her me flies like a dove  
Into the sky to may hidden above  
And my girl is sweeter than a honeysuckle love

Her gentle sweetness may me feel so good  
Open my heart like no other could  
And my girl is sweeter than a honeysuckle love

She's my cagey queen  
And here comes still love  
I would've given her moon  
And the stars above

Her sweet caresses make me lose my mind  
Nobody else has treated me so kind  
And my girl is sweeter than a honeysuckle love

I saw her move and I felt so fine  
I'm in a groove now I know she's mine  
And my girl is sweeter than a honeysuckle love

She's my cagey queen  
And here comes still love  
I would've given her moon  
And the stars above

She's my cagey queen  
And here comes still love  
I would've given her moon  
And the stars above

She's my cagey queen  
And here comes still love  
I would've given her moon  
And the stars above
