## The Sweet, Into The Night

**Andy Scott** 

I was a king thought of everything Into the night
Then I was out everybody shout Into the night
I kinda was having lots of fun Into the night
And now I've lost gotta count the cost Into the night

I couldn't lose When I was on top I couldn't lose But now it's all stopped

I wore a crown then began to frown Into the night I cast a spell and it fell on me Into the night

I dig a hole 'cause I got no soul Into the night I hear a phone then began to moan Into the night

I couldn't lose When I was on top I couldn't lose But now it's all stopped

I'm in a sea floating on one knee
Into the night
I think I'll drown oh I'm going down
Into the night
Is this a dream in agolden beam
Into the night
I look up high and there's no sky
Into the night

I couldn't lose When I was on top I couldn't lose But now it's all stopped
