

The Sweet, Neon Psychodelia

White lights, pink noise
Fast cars, brandnew toys
Hot pants, stacked shoes
Long hair and a short fuse
I live in black and white
Then came the light
Now I don't feel afraid of the dark
Neon psychodelia, Neon lightning flash
Neon psychodelia, dream on life's a gas
Neon
White lines, black night
Blue day, through the skylight
Feels good, solid ground
Another gig, another town
And with fluorescent eyes
She hypnotized
And you know overnight I'm a star
Neon psychodelia, Neon lightning flash
Neon psychodelia, dream on life's a gas
Neon
It was the sweetest thing, and Queen was King
And you know, I was out of my head
Neon psychodelia, Neon lightning flash
Neon psychodelia, dream on life's a gas
Neon psychodelia, Neon lightning flash
Neon psychodelia, dream on life's a gas
Neon psychodelia, Neon lightning flash
Neon psychodelia, dream on life's a gas
Neon psychodelia, Neon lightning flash
Neon psychodelia, dream on life's a gas
