

# The Sweet, Neon Psychedelia

White lights, pink noise  
Fast cars, brandnew toys  
Hot pants, stacked shoes  
Long hair and a short fuse  
I live in black and white  
Then came the light  
Now I don't feel afraid of the dark  
Neon psychedelia, Neon lightning flash  
Neon psychedelia, dream on life's a gas  
Neon  
White lines, black night  
Blue day, through the skylight  
Feels good, solid ground  
Another gig, another town  
And with fluorescent eyes  
She hypnotized  
And you know overnight I'm a star  
Neon psychedelia, Neon lightning flash  
Neon psychedelia, dream on life's a gas  
Neon  
It was the sweetest thing, and Queen was King  
And you know, I was out of my head  
Neon psychedelia, Neon lightning flash  
Neon psychedelia, dream on life's a gas  
Neon psychedelia, Neon lightning flash  
Neon psychedelia, dream on life's a gas  
Neon psychedelia, Neon lightning flash  
Neon psychedelia, dream on life's a gas  
Neon psychedelia, Neon lightning flash  
Neon psychedelia, dream on life's a gas
