

# The Sweet, New York Connection

Scott/Tucker/Priest/Connolly

It takes eight days where I wanna go  
Well, there's just me am I only go  
I've got no face to make this slow  
The further I travel the less I know

Somebody help me get home  
I can't spend my whole life alone  
Somebody help me get home  
I don't wanna be on my own

Won't somebody put me  
In the right direction  
'Cause all I need is  
A New York connection  
Really need a woman's affection  
I've got to make the close connection

Somebody help me get home  
I can't spend my whole life alone  
Somebody help me get home  
I don't wanna be all alone

Somebody help me get home  
I can't spend my whole life alone  
Somebody help me get home  
I don't wanna be on my own  
Don't wanna be on my own  
I don't wanna be on my own  
I don't wanna be on my own  
I don't wanna be on my own  
I don't wanna be on my own...
