

The Sweet, Over My Head

I know what you're thinkin'
I know what you're sayin'
Knowing what you really want from me
'Cause I feel it in the air
But it ain't no cross to bear
'Cause I believe in the power from the heart
And everything you say, it just goes....

Over my head
Do you really mean the things you said
Over my head

Give me your attention
Listen to me now
Put the sound of music in your ears
Maybe you will follow
Maybe you will lead
If you believe in the power you create
Anything you say, it just goes.....

Over my head
Do you really mean the things you said
Over my head

Over my head
Do you really mean the things you said
Over my head

Let me tell you something
Let me steal this moment
To tell you what is really on my mind
I don't need no flashing lights
'Cause I'm here with you tonight
And I believe in the power from the heart
And everything you say, it just goes....

Over my head
Do you really mean the things you said
Over my head
