

# The Swift, Now That Youve Found Me

I've seen the world, it's beautiful  
It's more than I could ever hold  
But I tried it once  
It's just a waste of time

And now that I have set free  
And You have shown your Word to me  
I'm asking for your strength

I wanna grow in grace  
I wanna grow in truth  
I wanna know that You are  
Watching my every move

Now that You found me  
Now that You saved saved me  
Begin to teach me  
Begin to change me

And now I finally realize  
That only You can satisfy  
This longing that the world could never fill  
The life that I have left behind  
The truth that I have come to find...  
Is You

I wanna grow in Grace  
I wanna grow in Truth  
I wanna know that You are  
Watching my every move

Now that You found me  
Now that You saved me  
Begin to teach me  
Begin to change me

Now that I love You  
With all that I am  
Give me a clean heart  
Make me a good man
