## The Thorns, Now I Know

Now I know And I'm never gonna be the same again I looked in your heart and I saw In my soul I felt darkness pull

Now I can't explain The sky only rains Now I know

That it really can't be any other way (it can't be any other way) I looked in your eyes and I cried For my life For your life Is a lie

And I can't explain The sky only rains Is it me?
