

The Thorns, Think It Over

Reach inside yourself
Find what is left
Things go wrong
But you're still strong
Time heals almost everything
And the world outside
Doesn't need to let you in
Lay your own stepping stones

Think It over
Might not be today
You'll know what to do
When it all turns around
Think it over
Might not see the way
Right in front of you
But it all comes around

Back against the wall (many ways to fall down)
There are many ways to fall (you might change your mind)
Take your time
Change your mind (take your time)

Chorus

Solo

Take your time
Change your mind (take your time)

Think it over
Might not be today
You'll know what to do
When it all turns around
Think it over
Might not see the way
Right in front of you
But it all
Yes it all

Comes around
Comes around
Comes around
