

The Tiger Lillies, Death Train

Death train coming down the track
There's a death train coming down the track
Into you that train will smash
There's a death train coming
Down the track
Death train
Death train
There's a death train coming down the line
There's a death train coming down the line
That death train will take you any time
The death train's coming down the line
Death train
Death train
Death train hits the young and old
Yeah the death train hits the young and old
It hits everyone I'm told
Yeah the death train hits the young and old
Death train roll up
Death train roll up
The death train hits the good and bad
The death train hits the happy and sad
Your ticket's been booked it already has
Yeah your ticket's been booked it already has
Death train
Death train
Well your ticket's been booked it already has
Your ticket's been booked it already has
Your ticket's been booked it already has
Your ticket's been booked it already has
Death train
