

The Tiger Lillies, You're World

You climbed the mountain tops until the pennies dropped
In your world
You climbed the mountain tops until the pennies dropped
In your world
In your world
In your world

You work a thousand miles if it's in the right style
For your world
You work a thousand miles if it's in the right style
For your world
For your world
For your world

Well, it doesn't seem to matter
And it doesn't seem to show
It's just when I look at you
I know

It's anger, fear and fake veneer
In your world
It's all anger, fear and fake veneer
In your world
In your world
In your world
In your world
