

The Trews, Confessions

Ya try to think of a human
civilization and everybody's cryin'
"how are we to explain things?",
easy,easy

Neurotic, psychotic and anxious,
has a dream about human
language and finally find the
words to say, easy easy
Confessions kill you over time
Confess your love leave me
behind

Chorus:

Keep me up all night like a saint
in the twilight hour
I don't need no one, I just
want someone to lie
Maybe in my tomb I'll evade
the madness, reinvent and
sculpt and package find a
luminary plain, easy easy
Confused by the blandness and
the trials of hurt and sadness and
not knowing anything, easy easy
Confessions kill you over time
Confess your love leave me
behind

Chorus 2x

Try to think of a human civilization
and everybody's cryin' "how are
we to explain things?", easy, easy
Neurotic, psychotic and anxious,
has a dream about human baggage
and finally throws it all away

Chorus 2x
