

# The Turtles, You Don't Have To Walk In The Rain

Al Nichol; Howard Kaylan; Jim Pons; John Seiter; Mark Volman

I looked at your face; is that the face I love?  
It's been a long time since I've seen you  
You've got a lovely place; the kids must send their love  
We stood there lonely, baby, without you

CHORUS:

girl, you don't have to walk in the rain  
'Cause baby, I know things can be just the same as before  
When you walk through my door, you'll be home, girl  
When you walk through my door, you'll be home  
I was so afraid I almost turned away  
But you know I need somebody to cling to  
I looked at your face; I love you anyway  
It's been a long time since I've seen you

(chorus twice, then repeat its 1st line & fade)
