

The Twilight Singers, Follow You Down

Get the wheel, lets go for a ride-
if youre trouble then Ill follow
you down
last night- I saw the strangest light
I wanna see it again-
Im wide awake-
somebody put a gun in my face-
go ahead I said- erase.
Get the wheel, lets go for a ride
if youre trouble, then Ill follow you
down
last night, last night was alright-
I wanna see you again.
