

The Twilight Singers, Golden Boy

i am the golden boy
the second son of god
and i have come
to mystify my brother
and any others
i can save
if you are lost
no need to cry, there is a light
upon your lonely face
and i
don't need saved
i need a place that's far behind me
i am dust, i am desperation
come with me, i fall to find my way
shadow me, i am the morning
i am a frozen boy
you'll cover me no more
i am lust
no need to cry, i'm sanctified
a smile upon my face
and i
don't need saved
i need a place that's far behind me
i am dust, i am desperation
come with me, i fall to find my way
shadow me, i am the morning
star...
