

The Twins, Love Can Change It All

I just can't take it anymore
I stay here locked behind my door
The night's alive with sound and shadow
But I stay in this one man ghetto
The only light is on my mind
I put it there to see what I'd find
In the struggle of do or die
There has to be a reason why.

Love can change it all
It's something I feel
It's something I still remember
Love can change it all
It's something I need
I know we could be together.

There is no sense in the day to day
But we accept it anyway
In the struggle of do or die
There has to be a reason why.

Love can change it all
It's something I feel
It's something I still remember
Love can change it all
It's something we need
Keeping us all together.
