

The Twins, The Desert Place

I'm sitting here in this desert place
And there's no sign of life on face
There's no way back to my home
I have to stay here - here on my own.

They really left me here to stay
And now my world is so far away.

There's no place for, a man like you
They told me
And so you stay in this desert place.

I'm sitting here in this desert place
And there's no sign of life on face
There's no way back to my home
I have to stay here - here on my own.

They really left me here to stay
And now my world is so far away.

There's no place for, a man like you
They told me
And so you stay in this desert place.
