

# The Unseen, Goodbye America

Yeah, everything bothers me  
Just about everything that i see  
No need for a flag or a country  
Raise your finger if you agree

The problems wont go away  
If we keep our rage at bay  
The filth and slime will always stay  
If we choose to ignore and play

The stars and stripes are prison bars  
They wont let you get too far  
The rule over many by the few  
You cant police my mind cause i won't let you

GOODBYE AMERICA! FUCK YOU AMERICA!

Pledge allegiance to yourself  
Not greed, power, war, and wealth  
Remember you were born a HUMAN BEING  
NOT A PART OF THEIR MACHINE

GOODBYE AMERICA! FUCK YOU AMERICA!

NO MORE SOCIAL ORDER.
