

# The Used, Blue And Yellow

And it's all in how you mix the two  
And it starts just where the light exists  
It's a feeling that you cannot miss  
And it burns a hole  
Through everyone that feels it

Well, you're never gonna find it  
If you're looking for it  
Won't come your way, yeah  
Well, you'll never find it  
If you're looking for it

Should've done something  
But I've done it enough  
By the way your hands were shaking  
Rather waste some time with you

And you never would have thought in the end  
How amazing it feels just to live again  
It's a feeling that you cannot miss  
It burns a hole through everyone that feels it

Well, you're never gonna find it  
If you're looking for it  
Won't come your way, yeah  
Well, you'll never find it  
If you're looking for it (looking for it)

Should've done something  
But I've done it enough  
By the way your hands were shaking  
Rather waste some time with you

Should've said something  
But I've said it enough  
By the way my words were faded  
Rather waste some time with you (time with you)  
(Waste some time with you)

Should've done something  
But I've done it enough  
By the way your hands were shaking  
Rather waste my time with you

Should've said something  
But I've said it enough  
By the way my words were faded  
Rather waste my time with you

Should've done something  
But I've done it enough  
By the way my hands were shaking  
Rather waste some time with you  
(Waste some time with you)  
Waste some time with you
