

The Used, Wake The Dead

This is not natural

A bunch of holes where the dead used to be underground

Forget supernatural 'cause all those resting in peace are out walking the streets

Yeah with no heartbeat

This is not possible

An empty hole in your chest where your heart used to beat

Does this mean what I think it means?

Just how could both you and me be about as dead as we could be

Yeah with no heartbeat

Take a walk with me, Walk with the dead

'Cause you knew that we had to die sometime

Well darling, Tonight could be

Let your voice shred miles of diamond skies

Just to walk as they wake in the darkness

Well darling tonight could be a beautiful night to die

Across the sky they can hear you on the other side

A scream that's loud enough to wake the dead

All alone you bought tickets for the nightmare as you wake the dead.
