

THE VAMPS, Better

We fell in
Now w're fallin apart
But do you even notice
You're sleeping
while w're fallin apart
going through the motions

so tell me
did things get better
or did we get used to it
tell me how did we get here
so much space in this bed
did we learn to make a little
feel like all that we could give
we can do better
yeah, we can do better than this

i won't settle for less than best
i say it so don't forget
i won't settle for less than best
i say it so don't forget
and we can do better than this

i bite my tongue
then i start to scream it
but does it make a difference at all
cos we should be lovers if there's a spark
we should recover all that we lost
cos it's too good to let it go

so tell me
did things get better
or did we get used to it
tell me how did we get here
so much space in this bed
did we learn to make a little
feel like all that we could give
we can do better
yeah, we can do better than this

i won't settle for less than best
i say it so don't forget
i won't settle for less than best
i say it so don't forget
and we can do better than this
