

# The Velvet Underground, She's My Best Friend

She's my best friend  
Certainly not the average girl  
She's my best friend  
Understands me when I'm falling

Down, down, down  
Oh, it hurts to be that way  
Down Down, down, down  
Oh, it hurts to know the bad kind of fellow

Here's to Newspaper Joe  
Dropped his teeth on the floor  
Caught his hand in the door  
Guess that's the way the news goes

If you want to see me  
Sorry, but I'm not around  
If you want to feel me  
Turn around and by the window where the light is

She's my best friend  
Better than a doll by far  
She's my best friend  
Understands me when I'm falling

Down, down, down  
Oh, it hurts to be that way  
Down, down, down  
Oh, it hurts to know the bad kind of fellow

Here's to Mullberry Jane  
She made jam when she came  
Somebody cut off her feet  
Now, jelly rolls in the street

If you want to see me  
Sorry, but I'm not around  
If you want to feel me  
Turn around and by the window where the light is

She's my best friend  
Certainly not the average girl  
She's my best friend  
Understands me when I'm falling  
"(Falling)"

Falling down, falling down  
Falling down, falling down  
Falling down, falling down  
Falling down, falling down
