

The Velvet Underground, She's My Best Friend

She's my best friend
Certainly not the average girl
She's my best friend
Understands me when I'm falling

Down, down, down
Oh, it hurts to be that way
Down Down, down, down
Oh, it hurts to know the bad kind of fellow

Here's to Newspaper Joe
Dropped his teeth on the floor
Caught his hand in the door
Guess that's the way the news goes

If you want to see me
Sorry, but I'm not around
If you want to feel me
Turn around and by the window where the light is

She's my best friend
Better than a doll by far
She's my best friend
Understands me when I'm falling

Down, down, down
Oh, it hurts to be that way
Down, down, down
Oh, it hurts to know the bad kind of fellow

Here's to Mullberry Jane
She made jam when she came
Somebody cut off her feet
Now, jelly rolls in the street

If you want to see me
Sorry, but I'm not around
If you want to feel me
Turn around and by the window where the light is

She's my best friend
Certainly not the average girl
She's my best friend
Understands me when I'm falling
"(Falling)"

Falling down, falling down
Falling down, falling down
Falling down, falling down
Falling down, falling down
