

The Verve, A man called sun

Everybody seems to know when he's around

He lifts me up and fades without a sound

Mr. Sun won't you shine?

Mr. Sun won't you shine?

Why he's here I will never know

He makes you know you feel

Like somewhere to go

Mr. Sun won't you shine?

Mr. Sun just you shine

Walking with a man called Sun

I think my journey's just begun

Do you think he'll mind?

He lifts you up he shines

And then he's gone

But you know you need him

More when he's gone

Mr. Sun just shine

Mr. Sun just shine

Walking with a man called Sun

I think my journey's just begun

Do you think he'll mind?

Shine...

Shine...

Shine...

Shine...

Let it shine...
