

The Verve, Gravity Grave (Live Glastonbury '93)

Thank you
This is our last one today
Hope we get into a bit of a groove with it

Get Back, get back again and again
I've been here since I can remember when
My life is a boat, being blown by you
With nothing ahead, just the deepest blue...

To me you're like a setting sun
You shine then you're gone
To me you're like a setting sun
You shine then you're gone

Come back, come back again and again,
I've been here since I can remember when
Your world just spins whilst mine stands still
Nothing's changed in my gravity grave

To me you're like a setting sun
You shine then you're gone
To me you're like a setting sun
You shine then you're gone

To me you're like a setting sun
You shine then you're gone
To me you're like a setting sun
You shine then you're gone
But I want my life
So bright it burns my eyes
Sounds like the perfect way
To end my life
To me you're like a setting sun...
To me you're like a setting sun...

Get it on
Get it on
Whatever you want
Whatever you want
Whatever you want
Whatever you want
I'm gonna get me somehow
Whatever you want
Whatever you want
I'm gonna get me somehow
Whatever you want
Whatever you want
I'm gonna get me somehow
Come on
Come on
Come on...
Whatever you want
Whatever you want
Load up
Load up
Load up
Load up
Nothing's changed in my gravity grave
My own world's stopped
Your's still spins
We could go up one more time
We could go up one more
One more
One more

One core
One more
One more
One more
Come on
But we gotta go
We got one minute left
Come on
We got one minute left
Come on
One minute
One minute...
Thank you
Have a good weekend, all right?
