

The Verve, Make It Till Monday

Hey my friend are we gonna make it till Monday?
Another Friday night waiting for a revelation
I can see a million faces in the condensation

Hey my friend are we gonna make it till Monday?
Hey my friend you better leave now
I'm gonna go my own way
You said I suffer from inner frustration

In a moment you changed
Now things weren't the same
You were talking at me not with me
And your tongue was burning up in flames
Are you coming back?
Are you coming back?
When Monday comes you'll be alone
With the whole world staring at you
Better leave now
