

# The Verve, So It Goes

Life, roll my die  
Change this life  
You said this movie was mine  
But now you go and change your mind  
This is my, my life  
So it goes  
You come in on your own in this life  
You know you leave on your own  
Cause? I don't need no cause  
When my feelings fall  
You showed me things I didn't wanna see  
I don't believe that love is free  
Sure fine way to treat a man

So it goes, you come in on your own in this life  
You know you leave on your own

Life, this is my, my life  
So it goes  
You come in on your own in this life  
You know you leave on your own  
Life, this is my, my life  
So it goes  
You come in on your own in this life  
You know you leave on your own

I'm just a poor little wifeless fella  
I'm just a poor little wifeless fella  
I'm just a poor little wifeless fella  
I'm just a poor little wifeless fella  
I'm just a poor little wifeless fella  
I'm just a poor little wifeless fella  
Another drink and I won't miss her  
Another drink and I won't miss her  
Another drink and I won't miss her  
Another drink and I won't miss her
