

The Verve, So It Goes

Life, roll my die
Change this life
You said this movie was mine
But now you go and change your mind
This is my, my life
So it goes
You come in on your own in this life
You know you leave on your own
Cause? I don't need no cause
When my feelings fall
You showed me things I didn't wanna see
I don't believe that love is free
Sure fine way to treat a man

So it goes, you come in on your own in this life
You know you leave on your own

Life, this is my, my life
So it goes
You come in on your own in this life
You know you leave on your own
Life, this is my, my life
So it goes
You come in on your own in this life
You know you leave on your own

I'm just a poor little wifeless fella
I'm just a poor little wifeless fella
I'm just a poor little wifeless fella
I'm just a poor little wifeless fella
I'm just a poor little wifeless fella
I'm just a poor little wifeless fella
Another drink and I won't miss her
Another drink and I won't miss her
Another drink and I won't miss her
Another drink and I won't miss her
