

The Vibrators, Whips & Furs

Dance to the music, dance to the music.
Dance to the music, dance to the music.
'Cos if you dance to the music,
The night will last, the night will last,
The night will go on and on.

He drives a black Cadillac, whips and furs in the back.
He drives a black Cadillac, whips and furs in the back.
An' if you dance to the music,
The night will last, the night will last,
The night will go on and on.

You can take a chance on love, one more dance on love.
You can take a chance on love, one more dance on love.
'Cos if you dance to the music,
The night will last, the night will last,
The night will go on and on.
