

# The View, Street Lights

Take your like in your own hands  
Walk down the street looking over your shoulder  
Who will you meet?  
An it's a big crowd tonight  
Look at the street lights  
It's a big crowd tonight  
Look at the street lights  
Look at the street lights, what a pretty sight  
You say that you love me  
You say that you don't  
You try to get me to jump through that hoop  
But I won't  
I'd like to move city  
I'd like to move town  
Cos all you ignorant people, you're bringin me down
