

# The Vines, Futuretarded

I don't know how the future started  
We might as well all be retarded  
Cut from an image turned to stone  
Makin' me feel it to the bone

Deep in the jungle or Sahara  
Real people carry on regardless  
Left unaffected left alone  
The sun, the earth, the moon their home

In the beginning  
Or the old days  
Surreal lives and mine are strange  
Oh yeah I say  
It's like futuretarded

C'mon baby don't say  
C'mon baby don't mind  
Every night every day  
Everything will be right
